Get your OutSystems Personal Environment

OutSystems - Jump Start Training

Get your personal environment

Launch the Environment

Click on the **'Create environment'** button to launch the personal environment

The screenshot shows the OutSystems My Platform dashboard. At the top, there is a navigation bar with 'OutSystems.com it', 'My Platform', and 'Community' tabs, along with 'Support' and 'Contact us' links. The main content area features a 'Download and install Service Studio' banner with a 'Download' button. Below this is a blue notification bar with the text 'Complete your account with a personal environment and start building apps with the OutSystems development tool.' and a 'Create environment' button circled in red. A red arrow points from the 'Create environment' button in the notification bar to the 'Create environment' button in the 'Your infrastructure' section. The 'Your infrastructure' section contains the text 'Development environment Please create your environment' and a 'Create environment' button. Below this is a 'Development how-tos' section with sub-sections for 'Where to start' and 'Guided paths'. The 'Where to start' section includes links for 'Overview of OutSystems development', 'Get to know Service Studio', and 'DevOps in OutSystems'. The 'Guided paths' section includes links for 'Learn reactive web dev with OutSystems' and 'Learn cross-platform web dev with OutSystems'. At the bottom, there is a preview of an 'Online Banking' app with '6 screens' and buttons for 'Try this app' and 'Build this app'.
